A decision will be reached probably at a meeting of the council and the executive committee to be held at the City Club this afternoon.

Colonel Roosevelt has been asked to come into town and express his opinion anant the American Federation at a meeting of the council and the executive committee to be held at the City Club this afternoon.
Colonel Roosevelt has been asked to come into town and express his opinion anent the American Federation of Labor as a medium through which authors may better their condition, and according to the best belief among the officers, he will be on hand.

It is the purpose of those suggesting the idea to make the Authors League a union organization in every sense of the word, that is, as much of a union as the Structural Iron Workers, the Hod Carriers, or any of the rest of them.

Not a Certainty.

It is by no means a certainty, how ever, that this committee is going to meet the executive committee and the council in an altogether receptive

council in an altogether receptive mood.

Rumor of the plan to affiliate with the Federation of Labor has already spread and in its spreading has not met with unqualified approval. On this phase of the situation Walking Delegate Thompson Buchanan was not overloquacious. It was learned, however, that Brander Matthews is likely to lead the opposition, if opposition develop this afternoon.

Mr. Buchanan explained that the authors are now and have been working uphill in their efforts with the moving picture managers. Some time ago a committee from the Authors' League visited some of the producers, suggesting uniform contracts and other things and were, as Buchanan put it.

"laughed at."

This reception got the dander of the authors up and now they propose to strike if the moving picture producers will not come to time.

The Safest Investments Are those that do not fluctuate during dis-turbed conditions of the money or stock mar-kets. First fleed of trust notes (first mort-gages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the financial responsibility of individuals or cor-porations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from 1500 upward. Send for booklet, "Concerning Loans and Investments."
